

**HINDI MAHAVIDYALAYA**  
**(ARTS, COMMERCE, SCIENCE & PG CENTRE)**  
**(Autonomous & NAAC RE-ACCREDITED)**  
**PROFORMA FOR THE ACTIVITY REPORTS**  
**(Extension lecture/Guest lecture/Workshop)**

**Enclosures: Circular/Notice/Photographs/List of Students with signatures / Feedbacks (If any)**

|                                      |   |
|--------------------------------------|---|
| Department                           | Department of Mathematics   |
| Webinar Topic                        | Applications of Number Theory   |
| Resource Person                      | Prof. V Srinivas, Department of Mathematics, University College of Science, Saifabad, Hyderabad   |
| Name (s) of the Teachers(s) involved | Smt. G.Srivani<br>Smt. T. Ramadevi<br>Sri. M.Sudhakar<br>Sri. T. Thirupathiah   |
| No. of Students                      | 85  |
| Date                                 | 18/09/2021  |
| Objectives                           | The student will able to :<br>1. Identify and apply various properties of and relating to the integers including the Well-Ordering Principle, primes, unique factorization, the division algorithm, and greatest common divisors.<br>2. Identify certain number theoretic functions and their properties.<br>3. Understand the concept of a congruence and use various results related to congruences including the Chinese Remainder Theorem.  |
| Report                               | 1. He explained Well-Ordering Principle with different examples.<br>2. He explained unique factorization, the division algorithm with examples and applications.<br>3. He explained concept of a congruence with examples and applications like Chinese Remainder Theorem with examples.<br>4. He explained recognized Fibonacci numbers with suitable examples and their applications.<br>5. He explained Golden Ratio with appropriate examples like human body, Picasso painting and so on.            |
| Outcomes                             | After this webinar, students should be understand to:<br><ul style="list-style-type: none"><li>• find quotients and remainders from integer division</li><li>• apply Euclid's algorithm and backwards substitution</li><li>• understand the definitions of congruences, residue classes and least residues</li><li>• determine multiplicative inverses, modulo n and use to solve linear congruences.</li><li>• Students also verify the Golden Ratio in beautiful images, Buildings and so on.</li></ul> |

# HINDI MAHAVIDYALAYA

(AUTONOMOUS & NAAC RE-ACCREDITED)  
Arts and Commerce, Science and P.G. Centre  
Affiliated to Osmania University  
Nallakunta, Hyderabad – 500044.

**Department of Mathematics Presents Webinar on**

**NUMBER THEORY AND ITS APPLICATIONS**

**SPEAKER : Dr. V.SRINIVAS**  
Senior Assistant Professor , Department of Mathematics ,  
University College of Science , OU, Saifabad, Hyderabad

**Date: 18 – 09 – 2021**  
**Time: 11.00 am**

**Zoom Meeting ID**  
**ID: 691 326 4695**

**Password: maths**

**Dr. Y. V. Rao**  
Principal  
Smt. Ashwini Sanpurkar  
Vice - Principal

**Contact Details**  
Mail: [info@hindimahavidyalaya.org](mailto:info@hindimahavidyalaya.org)  
Phone No : 040-2766330

**Faculty of Department**  
Smt.G.Sreevani  
Smt. T. Ramadevi  
Mr. M.Sudhakar  
Mr. T. Thirupathiaiah
